Core Aeration

We use a core aerator to remove “plugs” from your lawn. These plugs are beneficial to your lawn, and will remain on top after we leave. A few rainfalls will loosen them up and they will disappear. This process allows needed nutrients to make their way to your lawn’s root system creating a healthier, lush lawn next season.

For even better results, we can apply an application of fertilizer to help your lawn remain healthy through the winter. If you are already a seasonal fertilizer customer, you will be receiving this treatment as part of your program. No need to sign up again.

Our scheduling is based on when we are in your neighborhood. If you don’t want service at that time, we will try to get back later. Trip charges may apply for additional mileage.

All customers must pre-pay or have a valid credit card on file. Your credit card will be charged immediately following services, and a receipt will be e-mailed to you.

Obstructions must be removed or marked by customer prior to service. This includes, but is not limited to hoses, cables, wires, dog chains, toys, sprinklers and valves.

MARK ALL SPRINKLER HEADS CLEARLY IF YOU HAVE AN IRRIGATION SYSTEM. WE CAN NOT SEE THEM, AND WE WILL NOT BE HELD LIABLE FOR DAMAGE.

Core Aeration \$_____ plus tax

Optional Fertilizer \$_____ plus tax

Special Instructions:_____

I authorize Lawn & Snow Express Inc. to bill my credit card based on parameters listed above.

Signed_____ Date_____

***You may also authorize by email acknowledging the above terms.**
